

**Workshop 2**  
**Picking up your kids from the kindergarten on time**

*Introduction* Some parents are often late in picking up their children from the day care centre. The Board of Daycare Centres wishes to reduce this problem. The Board is asking for your advice.

*Discussion*

1. Why do you think is there a problem here?
2. What do you think would be an ideal solution to the problem?
3. How would you design a pay for performance scheme here?

*Writing Task* Write a non-technical summary report explaining to the Board of Childcare Centres how it may design a piece rate contract to reduce the number of days when parents are late in picking up their children.
